

Proyecto Garnachas de España – La Garnacha Olvidada de Aragón, 2015

Aragon, Spain

Raúl Acha started his “Garnacha Project” with the goal to source exceptional vines of Garnacha from vineyards reflecting the multitude of unique expressions of this mother grape. He found himself discovering several vineyards yielding unique reflections of Garnacha, all from abandoned and forgotten sites where the vines grew wild, adjusting over decades of unattended growth to the rhythm of nature, with no human hands to influence them. This is the cornerstone of *Proyecto Garnacha*.

Varietals

100% Wild Garnacha

Vineyards planted in 1940, located on slopes with ferrous-clay soil in Valle del Ribota.

Vinification

10 mos. in new French oak barrels.

Tasting Notes

“Mature red cherry with deep edges. Intense, with dark red and black fruits with roasted and cocoa notes. Smooth and fruity wine, complemented with gentle tannins. Intensive character that fills the mouth and leaves a long aftertaste.”
