From the heart of the Rioja, inside the Rioja Alta, comes the collection Hacienda López de Haro. The Sonsierra: with the Sierra de Cantabria mountains on the north and the Ebro River on the south, is a perfect area for old-vines of Tempranillo. That is why this area has an ancient tradition of winegrowing and winemaking. Headed by winegrower and winemaker, Raúl Acha, utilizing hand-pruned mountain vineyards and natural methods.

Victoria Cañas and Antonio Diez-Caballero work with 25 hectares at this old winery in Elciego Primicia, representing the last vestige of a rich winemaking tradition in the Basque region of Rioja-Alavesa. Following the formula of traditional Bordeaux châteaux —relatively rare in Rioja— Caballero’s wines come exclusively from estate-owned mountain top vineyards planted with old vine Tempranillo. Mountainside cellars excavated in ancient slabs of rock, formerly dug out by 15th century monks, barrel condition their small batches of highly lauded Rioja wines.

DOMINVM

Created by winegrower and winemaker, Raúl Acha, QP – Quatro Pagos (four farms) – is a wine fashioned from high-altitude, old vineyards near the growing thresholds in the desert climate of the Sonsierra Mountains of Rioja. Life is hard for the vines in these estates, so only the best selections will thrive and become hand pruned for QP in limited vintages not available every year, only crafted in the best of circumstances.

Raúl Acha started his “Garnacha Project” with the goal to source exceptional vines of Garnacha from vineyards reflecting the multitude of unique expressions of this mother grape. He found himself discovering several vineyards yielding unique reflections of Garnacha, all from abandoned and forgotten mountain sites where the vines grew wild, adjusting over decades of unattended growth to the rhythm of nature, with no human hands to influence them. This is the cornerstone of *Proyecto Garnacha*.

BARDOS

The bards immortalized only the greatest stories for their songs. In the same way, Bardos immortalizes only those harvests rated as excellent. In the toughest and coldest area of Ribera del Duero, at more than 940 meters above sea level, between the villages of Fuentemolinos and Moradillo de Roa, wines has taken shape in honor of all the men and women who dedicate their lives to the vineyard: the song of the bards, where only the bravest know how to work the land in extreme conditions throughout the year. A place where the cold shrinks the bones, the wind cuts the flesh and the sun burns the skin-and holds the riddle of enduring ancient vines. Winemaker- Raúl Acha

ATLANTIS

The Atlantic Ocean has always been a source of inspiration for stories, myths and legends of sea monsters swimming in the magic waters at the ends of the world. This magic also influences the land behind the sea. The moods of the Atlantic in this most North-Western part of Spain significantly influence the fruit grown in the vineyards. Atlantis is a project by Raúl Acha exploring small, single farm –sourced native grape varieties from sea crafted terroirs .

The founding family of the winery can trace their heritage on the land to the 12th century. The first written references to making wines to sell on the Finca Viladellops date back to the end of the 19th century, specifically to 1877, and production continued without interruption until 1980. The same family bloodline, Marcelo Desvalls, continue to make wines from these ancient, organic vineyards.

The Sticciano estate, a historic seventeenth-century farm in Certaldo, Florence, has a long wine-making history. Documents dated 1815 speak of wine-making in the historic three hundred year- old Medici cellar adjoining the villa. Today at Sticciano, in the same cellar as that of three centuries ago, the Chianti and other wines produced are left to mature. Brothers Enrico and Alessio Milotti utilize biodynamic, natural practices to their winegrowing. The vineyards are all estate property, organic, and have no persistent chemical treatments applied. They rely upon flora and fauna to steward the vines.

Making wine from honey instead of grapes was first introduced Australia by Mark Maxwell's father, Ken (1915 – 2004) whose devotion to the ancient craft created the benchmark for modern mead-making around the world. The first label was released in 1961 and with it, the birth the Australian mead industry. Today, Maxwell Mead is Australia's favorite honey wine and the most successful range in the Southern Hemisphere. Mark remains true to the recipe and techniques pioneered by his father.
